

## ELIGIBILITY FOR CYO TEAM SPORTS AT ST. ANSELM SCHOOL

St. Anselm CYO team sports are: Soccer, Basketball, Baseball, Softball and Cheerleading

### 1) **Physical:**

- a. All students wishing to play a CYO sport must have a current sport's physical on file in the office. Any student due to doctor's orders and/or chronic health condition, is unable to regularly participate in gym class, is not eligible for St. Anselm team sports.

### 2) **Academic:**

- a. A student must achieve a minimum **grade point average** of a 2.0.
- b. A student must receive a minimum grade of a "C" in conduct in all classes.
- c. If a student's grades fall below this level the following guidelines will be taken:

#### **ACADEMIC PROBATION GUIDELINES:**

1. Academic probation will be enforced at the beginning of each sport season.
2. If a student's grade falls below a 2.0 **average**, including conduct, a two week evaluation period will begin. During this two week period, the student may participate, but must show improvement in the area of concern.
3. The principal will confirm eligibility and will evaluate on a student by student basis.

### 3) **Suspension/Detention:**

The Athletic Director will be notified in the event that a student has been suspended in school or from school because of an infraction occurring in school. In this case, a student may be removed from practice and participation for a directed period of time. (This is at the principal's discretion.)

### 4) **Tuition:**

In the event that tuition has not been paid or is not up to date at the time of registration for a sport, the office will hold registration. The students' name will not be recorded on the roster which means the student will be ineligible to participate in a scheduled game. Once tuition is paid, the student will be added to the roster.

---

I have read the Academic Eligibility policy for St. Anselm and understand its requirements.
